U.S. EPA Form 8700-22

Read all instructions before completing this form.

- 1. This form has been designed for use on a 12-pitch (elite) typewriter which is also compatible with standard computer printers: a firm point pennial also be used press down hard
- 2. Federal regulations require generators and transporters of hazardous waste and owners or operators of hazardous waste treatment, storage, and disposal facilities to complete this form (EPA Form 8700-22) and, if necessary, the continuation sheet (EPA Form 8700-22A) for both inter- and intrastate transportation of hazardous waste.

Public reporting burden for this collection of information is estimated to average: 30 minutes for generators, 10 minutes for transporters, and 25 minutes for owners or operators of treatment, storage, and disposal facilities. includes time for reviewing instructions, gathering data, completing, reviewing and transmitting the form. Any correspondence regarding the PRA burden statement for the manifest must be sent to the Director of the Collection Strategies Division in EPA's Office-of-Information Gollection at the following address: -U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW., Washington, DC 20460. Do not send the completed form to this address.

I. Instructions for Generators

Item 1, Generator's U.S. EPA Identification Number

Enter the generator's U.S. EPA twelve digit identification number, or the State generator identification number if the generator site does not have an EPA identification number

12. Unit

Item 2. Page 1 of

Enter the total number of pages used to complete this Mahifest (i.e., the first page (EPA Form 8700-22) plus the number of Continuation Sheets (EPA Form 8700-22A), if any).

Item 3. Emergency Response Phone Number

Enter a phone number for which emergency response information can be obtained in the event of an incident-during transportation. The emergency response phone number-must

- 1. Be the number of the generator or the humber of an agency or organization who is capable of and accepts responsibility for providing detailed information about the shipment;
- 2. Reach a phone that is monitored 24 hours a day at all times the waste is in transportation (including transportation related storage); and
- 3. Reach someone who is either knowledgeable of the hazardous waste being shipped and has comprehensive emergency response and spill cleanup/incident mitigation information for the material being-shipped or has immediate access to a person-who has that knowledge and information about the shipment.

Note: Emergency Response phone number information should only be entered in Item 3 when there is one phone number that applies to all the waste materials described in Item 9b. If a situation (e.g., consolidated shipments) arises where more than one Emergency Response phone number applies to the various wastes listed on the manifest, the phone numbers associated with each specific material should be entered after its description in Item 9b.

Item 4. Manifest Tracking Number

This unique tracking number must be pre-printed on the manifest by the forms printer.

by the designated facility should be mailed, and the generator's telephone number. Note the visional properties tracking number of the original manifest for releasing wastes and telephone number (including area code) should be the normal business number for the number generator, or the number where the generator or his authorized agent may be reached to provide instructions in the event the designated and/or alternate (if any) facility rejects some or all of the shipment. Also enter the physical site address from which the shipment originates only if this address is different than the mailing address.

Item 6: Transporter 1 Company Name, and U.S. EPA ID Number

Enter the company name and U.S. EPA ID number of the first transporter who will transport the waste. Vehicle or driver information may not be entered here. 💪

Item 7. Transporter 2 Company Name and U.S. EPA ID Number

TO JAMES PACKATENED

If applicable, enter the company name and U.S. EPA ID number of the second transporter who will transport the waste. Vehicle or driver information may not be entered here. If more than two transporters are needed, use a Continuation Sheet(s) (EPA Form 8700-22A).

Item 8. Designated Facility Name, Site Address, and U.S. EPA ID Number

Enter the company name and site address of the facility designated to receive the waste listed on this manifest. Also enter the facility's phone number and the U.S. EPA twelve digit identification number of the facility.

Item 9. U.S. DOT Description (Including Proper Shipping Name, Hazard Class or Division, Identification Number, and Packing Group)

Item 9a. If the wastes identified in Item 9b consist of both hazardous and nonhazardous materials, then identify the hazardous materials by entering an "X" in this Item next to the corresponding hazardous material identified in Item 9b.

Item 9b. Enter the U.S. DOT Proper Shipping Name, Hazard Class or Division, Identification Number (UN/NA) and Packing Group for each waste as identified in 49 CFR 172. Include technical name(s) and reportable quantity references, if applicable.

Note: If additional space is needed for waste descriptions, enter these additional descriptions in Item 27 on the Continuation Sheet (EPA Form 8700-22A). Also, if more than one Emergency-Response phone number applies to the various-wastes described in either-tiem 90 or Item 27, enter applicable Emergency Response phone numbers immediately following the shipping descriptions for those Items.

Item 10. Containers (Number and Type)

Enter the number of containers for each waste and the appropriate abbreviation from Table I Please print or type. (Form assigned for use on eithe (12-pitotranjatnot) to type. (Form assigned for use on eithe (12-pitotranjatnot) to type.

TABLE L-TYPES OF CONTAINERS OGRAVAH MROTIVU

BA = Burlap, cloth, paper, or plastic bags. WASTE Majorited and TO

DW = Wooden drums, barrels, CF = Fiber or plastic boxes, cartons, cases. CM = Metal boxes, cartons, cases (including-HG = Hopper or gondola cars.

roll-offs). CW = Wooden boxes, cartons, cases. TC = Tank cars.

TP = Portable tanks. CY = Cylinders. -DF-=-Fiberboard-or-plastic-drums; barrels; kegs TT= Cargo tanks (tank trucks)

DM = Metal drums, barrels, kegs.

tem-11:-Total Quantity-

Enter, in designated boxes, the total quantity of waste. Round partial units to the neares whole unit, and do not enter decimals or fractions. To the extent practical, report quantities using appropriate units of measure that will allow you to report quantities with precision. Waste quantities entered should be based on actual measurements or reasonably accurate estimates of actual quantities shipped. Container capacities are not acceptable as estimates

Item 12. Units of Measure (Weight/Volume)

Enter, in-designated boxes, the appropriate abbreviation from Table-II-(below) for the unit of EOT Description (including Proper Shipping Neum.

TABLE IL--UNITS OF MEASURE

G = Gallons (liquids only): N = Cubic Meters. K = Kilograms. P = Pounds. L = Liters (liquids only) T = Tons (2000 Pounds) M = Metric-Tons (1000 kilograms). Y = Cubic Yards:

Note: Tons, Metric Tons, Cubic Meters, and Cubic Yards should only be reported in connection with very large bulk shipments, such as rail cars, tank trucks, or barges

Item-13:-Waste-Godes-

Enter up to six federal and state waste codes to describe each waste stream identified in Item 9b. State waste codes that are not redundant with federal codes must be entered here, lin addition to the federal waste codes which are most representative of the properties of the waste

Item 14. Special Handling Instructions and Additional Information

1. Generators may enter any special handling or shipment-specific information necessary for the proper-management or tracking of the materials under the generator's or other, handler's business processes, such as waste profile numbers, container codes, bar code or response guide numbers. Generators also may use this space to enter additional descriptive information about their shipped materials, such as chemical names, constituent percentages, physical state, or specific gravity of wastes identified with volume units in Item 12.

Item 5. Generator's Mailing Address; Phone Number and Site Address: No which the completed manifest signed and the generator, the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the completed manifest signed contact and specific space provided on the mailing address to which the complete specific space provided on the mailing address to which the complete specific space provided on the contact and the cont residues that are re-shipped under a second manifest, and the specification of PCB waste descriptions and PCB out-of-service dates required under 40 CFR 761 207. Generators, however, cannot be required to enter information in this space to meet state regulatory fequirements.

Item 15. Generator's/Offeror's Certifications

1. The generator must read, sign, and date the waste minimization certification statements in signing the waste minimization certification statement, those generators who have n been exempted by statute or regulation from the duty to make a waste minimization certification under section 3002(b) of RCRA are also certifying that they have complied with the waste minimization requirements. The Generator's Certification also contains the required attestation that the shipment has been properly prepared and is in proper condition-for-transportation-(the-shipper's certification).—The-content-of-the-shipper's certification statement is as follows: "I hereby declare that the contents of this?" consignment are fully and accurately described above by the proper shipping name; and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations...If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent When a party other than the generator prepares the shipment for transportation, this party may also sign the shipper's certification statement as the offeror of the shipment

Generator or Offeror personnel may preprint the words. "On behalf of the signature block or may hand write this statement in the signature block prior to signing the generator/offeror certification, to indicate that the individual signs as the employee or 18. Fazardous Waste Report Managoment Weered Oction (Let, codes :Isqioninq:bemanterlate.

Note: All of the above information except the handwritten signature required in Item 15 inta be pre-printed.
